
2026-2027 ICT G7 MIDTERM PROJECT

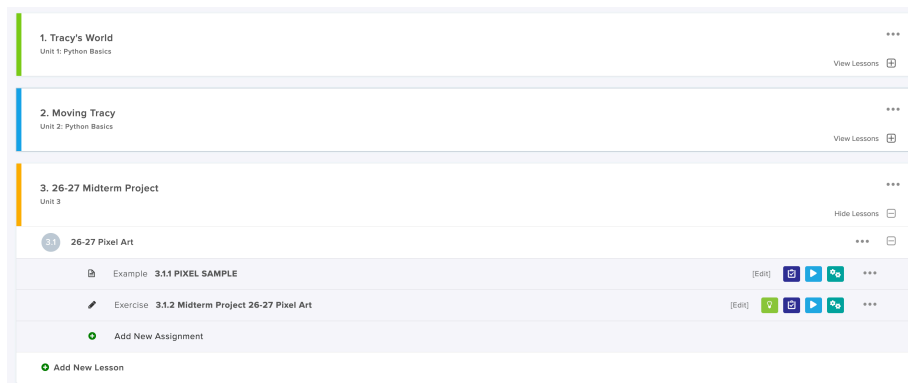

Name:

Class:

PIXEL ART INSTRUCTION

You will create a **pixel art** using Python Turtle Graphic library (also known as Tracy) on codehs.com.

You can find the Sample work and your starting code on your codehs.com assignment. You should put in your code in 3.1.2 **Midterm Project 26-27 Pixel Art**

The **theme** of this drawing should be one of the followings (or combination):

1. Drawing of an emoji
2. Drawing of a cartoon icon

The pixel art should meet the following requirements:

1. **It is your original work.**
2. **It has at least 20 pixel blocks.**
3. **It has at least 2 colors. (Not including the white background)**
4. **You are supposed to used the following commands:**

1. **goto()**
2. **stamp()**
3. **color()**

(1) `color("red")` will make Tracy draw red pixels.

(2) If you need more color, use a Hex color picker (<https://htmlcolorcodes.com/color-picker/>) copy the 6-digit code and add a starting # sign.

`color("#D63A1E")`

Deadline: October 16th Friday, 23:59
